EDUCATION

Cornell University Ithaca, NY
Master of Professional Studies 2016
Information Science

University of Washington Seattle, WA
Bachelor of Science 2014
Human-Centered Design & Engineering

EXPERIENCE

Research Assistant 01/2017-05/2017
Virtual Embodiment Lab at Cornell University
Developed VR mini games for team building. Researched novel team interactions with joint embodiment in immersive virtual environment.

UX/UI Intern 11/2015-12/2015
day100 (Startup)
Helped build the first version of the product. Designed the web application interface. Designed and coded the HTML email templates for notifications and newsletters.

UX Design Intern 04/2014-06/2014
Expedia.com
Designed the responsive website flow for travel package checkout. Planned and conducted lab usability test. Created a streamlined checkout experience with user-validated designs.

PROJECTS

Product Design & Logo Design 01/2014-03/2014
QueuePool
QueuePool is a web-based waiting-list system that makes student's waiting time more productive.
Redesigned the whole line-up experience for students at University of Washington's Math Study Center. Started with field user research. Led the ideation and coded an interactive prototype.

Product Management 09/2014-11/2014
Actually
Actually is a web application that helps software development team track their development progress.
Shipped the Minimum Viable Product. Led the product definition process. Coordinated design sprints with development. Helped design and implement the user interface.
